GOOD FOOT FORWARD

Good Foot Forward is an employment readiness program designed to support neurodivergent individuals in developing workplace skills, confidence, and meaningful employment opportunities.

“The thing that I like the most about my placement is that it shows that I am more capable of doing manual labour after believing that it wasn't a field I could do well in.

– Charlie
Good Foot Forward Participant

Our program challenges traditional hiring norms, sparks conversation, and supports employers ready to build more accessible teams.
